Inside The Numbers

Thurman defied age (36), severe inactivity (three years, second fight in five-and-a-half years) and geography (Sydney, Australia, Jarvis' home country) in scoring this explosive third-round TKO over Jarvis (22-1, won last two), Thurman's first inside-the-distance win since stopping Luis Collazo in July 2015. A combination capped by a left uppercut scored the first knockdown of round three while a three-punch salvo highlighted by an overhand right and a left hook produced the second as well as the instant stoppage by referee Will Soulos. The output was nearly identical (Thurman threw 106 total punches to Jarvis' 105) but Thurman's accuracy gaps of 34%-23% overall, 18%-15% jabs and especially 54%-29% power resulted in final margins of 36-24 overall, 11-7 jabs, 15-13 body and 25-17 power.
